PROFESSIONAL EXPERIENCE

IT Systems Administrator - ECPI University, Virginia Beach, VA | October 2025 – Present

- Delivered front-line technical support resolving hardware, software, and network issues for 5 campuses, maintaining high service uptime.
- Performed account administration tasks including access provisioning, password resets, and role-based permission updates across multiple systems.
- Documented technical issues and resolutions in the ticketing system, improving response efficiency and enabling trend analysis.
- Collaborated with Tier 2 and Tier 3 technicians to escalate complex system outages and maintain SLA compliance.

- Deployed software packages to hundreds of endpoints using enterprise management tools, ensuring consistent configurations across devices.
- Configured host-based firewalls on endpoints to enforce security policies and reduce attack surface.

Sales & Retail Associate - Steve Madden, Norfolk, VA | April 2024 – August 2024

- Managed merchandise flow and stockroom organization, improving product availability and reducing restocking delays.
- Operated POS systems with high accuracy, ensuring secure transactions and minimizing checkout errors.
- Assisted customers with product selection and sizing, contributing to a smooth shopping experience and increased repeat business.

Security Manager - U.S. Navy, Norfolk, VA | February 2023 – February 2024

- Managed the control, transfer, and storage of classified material, ensuring 100% compliance with federal security standards.
- Developed and delivered training on proper handling, safeguarding, and destruction procedures for classified information.
- Implemented security controls and audit processes that reduced handling discrepancies and improved inspection readiness.

Sonar Technician - U.S. Navy, Norfolk, VA | November 2020 – February 2024

- Operated sonar systems, underwater fire control systems, and towed arrays to support navigation, contact tracking, and search-and-rescue missions.
- Analyzed and reported acoustic data to identify and classify targets of interest during high-security operations.
- Served as OK-410 towed array SME; led the ship's first successful deployment of the system in over nine years.
- Assisted in troubleshooting the AN/SQQ-89 system, improving system reliability and reducing downtime during mission-critical operations.

Store Administrator - Natural Market, Tampa, FL | May 2019 – November 2020

- Improved product freshness and availability by optimizing restocking routines, reducing out-of-stock incidents during peak hours.
- Maintained the reverse osmosis water system, preventing service disruptions and ensuring consistent water quality for daily customer use.

- Streamlined supplier communication and order processing, cutting fulfillment delays and improving inventory accuracy.
- Resolved customer concerns and in-store conflicts, contributing to higher satisfaction and smoother daily operations.

Restaurant Crew Member - Moe's Southwest Grill, Tampa, FL | August 2018 – April 2019

- Delivered fast, friendly service that improved customer flow and reduced wait times during high-volume rush periods.
- Supported food prep and quality control, helping maintain compliance with company food-safety and cleanliness standards.
- Operated POS systems with high accuracy, reducing transaction errors and keeping service lines moving efficiently.
- Contributed to team productivity by keeping both the kitchen and dining areas clean, stocked, and ready during peak demand.

EDUCATION

ECPI University - Virginia Beach, VA | June 2026

B.S., Cyber and Information Security Technology (Concentration in Cybersecurity)

Summa Cum Laude

ECPI University - Virginia Beach, VA | April 2025

A.S., Computer Information Science (Concentration in Cybersecurity)

Summa Cum Laude

VOLUNTEER EXPERIENCE

Blood Donor Ambassador & Scheduling/Onboarding Specialist - American Red Cross, Norfolk, VA | February 2024 – Present

- Greet and assist donors, ensuring a positive experience and efficient check-in process during blood drives.
- Maintain accurate documentation while adhering to safety and confidentiality standards.
- Coordinate onboarding and scheduling for new volunteers, streamlining workflows across multiple shifts.
- Provide operational support during high-volume drives by directing donor flow and resolving basic issues.
